Louisiana Board of Ethics:

My name is Jamea Walker, I am currently an employee of the State of Louisiana. I work for the Department of Public Safety and Corrections as a Probation/Parole Officer. The main duty of my job is to supervise convicted felons and assist with their reintegration back into society. Doing so, I conduct home visits, curfew checks, employment verifications and drug screens. I work with the courts and treatment facilities to find treatment and different programs that will aid in the success of the individual I am supervising. I intend to start a driving school in my hometown, Donaldsonville Louisiana. I would be the owner of the driving school as well as an instructor. My hometown does not currently have any driving schools and I believe this would be a great asset. This school would be local and more convenient for the citizens. There would be more individuals with proper driving instruction, which would hopefully decrease the number of accidents and tickets. I am writing this letter to the Board to see if my plans to open a driving school would be an ethical violation due to the position I currently hold. LA driving schools is requesting that I return a written ruling in order to proceed with the application process.

Thank you,

  
Jamea Walker
